**RISING  
TO THE  
CHALLENGE**

**NATIONAL WINE CENTRE OF AUSTRALIA**

**WEDNESDAY, 9 OCTOBER TO THURSDAY, 10 OCTOBER 2019**

# WELCOME FROM ALCA AND YOUR CONFERENCE HOST, NATURE FOUNDATION SA

We are most excited to welcome you here to beautiful Adelaide for ALCA's 5th Annual Private Land Conservation conference, PLC19.

The conference theme of Rising to the Challenge is extremely apt, with climate change and species extinction high in society's mind.

The private land conservation sector manages very significant areas of land and is a significant contributor to regional jobs and economies. It is growing in scale, reach, intent, momentum and influence.

The conference is the highlight of our year. It would not be possible without the tireless efforts of many, the energy of the ALCA Board and Nature Foundation, and the generosity of our wonderful sponsors and speakers.

Thank you for attending. We are sure you will love Adelaide and South Australia. We are also sure you will find the conference informative, unifying and inspiring as you and your organisations Rise to the Challenge.

## **Brendan Foran**

Chief Executive Officer,  
Greening Australia  
Chair, Australian Land  
Conservation Alliance

## **Hugo Hopton**

Chief Executive Officer,  
Nature Foundation SA  
Board Member, Australian Land  
Conservation Alliance

'The BHP Foundation, a charitable organization funded by BHP, works to address some of the most critical sustainable development challenges facing our generation.

Our Environmental Resilience program is rising to the challenge of finding new solutions for conserving and sustainably managing large-scale, globally significant natural environments. The BHP Foundation is based on collaboration, and like ALCA who bring together people who are critical in addressing nature conservation in Australia, we seek to work in genuine partnership with experienced and dedicated organizations around the world, to address these challenges.

Together we can support the sharing of evidence, the setting of new standards and be active advocates for change.'

## TIME DETAIL

1:15pm to 2:15pm

**Concurrent Session: Building Australia's Protected Areas**

Arguments for long term protection of privately owned areas  
*Victoria Marles, Trust for Nature*

How the NSW Biodiversity Conservation Trust is delivering and investing in private land conservation  
*Kate Smillie, Biodiversity Conservation Trust*

Special wildlife Reserves: a new class of privately protected area in Queensland  
*Andi Dunlop, Department of Environment and Science Queensland*

An enduring conservation partnership  
*Leigh Walters, Tasmanian Land Conservancy*

The Ediacara Fossil site on Nilpena Station, South Australia: finding new partnerships to manage a new national park from pastoral lands  
*Jason Irving, Department for Environment and Water*

Proactive partnerships in conservation: SA Heritage Agreement Program - 1 million hectares and beyond  
*Karina Mercer, Department for Environment and Water*

Facilitator: Paul Elton, Biodiversity Conservation Trust

📍 The Gallery Room

## TIME DETAIL

2:20pm to 3:20pm

**Concurrent Session: Diversifying Landholder Income**

Farm covenants: finding value in sustainable land management and biodiversity protection on agricultural land  
*Cecilia Riebl, Trust for Nature*

Delivering biodiversity stewardship agreements and a strategic biodiversity offsetting service in NSW  
*Maria Kwiatkowska, Biodiversity Conservation Trust*

What happens when two diametrically opposite organisations forge a path together? Long-term collaboration for business, community and environmental gains  
*Alex Nankivell, Nature Foundation SA*  
*Daniel Leinfelder, OZ Minerals*

Impact investing to generate financial returns, conservation results and community benefits (USA)  
*Carl Palmer, Legacy Works Group*

A contemporary policy approach to offsetting vegetation clearance in South Australia  
*Sarah Reachill, Department for Environment and Water*

Facilitator: Emily Jenke, MC, PLC19

📍 The Vines Room
